If the motion prevails, the matter may be "taken from the table" at any time prior to the end of the next regular meeting.
- D. MOTION FOR PREVIOUS QUESTION - The purpose of this motion is to close debate on the main motion. It is undebatable, and no further discussion shall be permitted until the motion is acted upon. - B. This type of procurement will generally only be appropriate for goods and services that are readily available in standard commercial transactions and for which no particular specifications are necessary.
- C. This type of purchase may also be used for the purchase of tools, materials and replacement parts from those suppliers that are available in this immediate area, when the additional costs associated with the time and travel required for the use of alternative sources may outweigh the value of any savings in price in those particular circumstances.

3.5.8 Other Types of Procurement

- A. Professional services from a technical registrant, including but not limited to an architect, engineer, geologist or surveyor, shall be procured in a manner that is consistent with applicable state law. Such services may be procured in any manner allowed by such laws (See A.R.S. § 34-103).

A contract may be awarded for materials, equipment or services without competition if the City Manager determines in writing that there is only one source for the required materials, equipment or services. Sole source procurement shall be avoided except when no reasonable alternative source exists. A written determination of the basis for the sole source procurement shall be included in the contract file.

If prices for such work are included in the proposals, any such contract shall be awarded on the basis of the best interests of the City and not solely on the basis of price.

3.5.9 Cooperative Purchasing Agreements

- A. Cooperative purchasing, by which the procurement is conducted on behalf of more than one public entity, is an acceptable method of complying with these requirements and in many cases will result in an offer that is more advantageous to the City than what would be otherwise available only to this City.
- B. The City may enter into, conduct, administer and otherwise fully participate in any cooperative purchasing agreement that has been approved by the Mayor and Council, in accordance with the terms and conditions of any such agreement. 3.5.12 Pre-qualification of Bidders or Offerors

The City Manager may employ a method whereby suppliers seeking to provide particular types of supplies, services or construction may pre-qualify as responsible prospective contractors for such supplies, services or construction. Solicitation mailing lists of potential suppliers of such supplies, services or construction shall include, but shall not be limited to, such pre-qualified suppliers. Pre-qualification shall not foreclose a determination between the time of the bid opening or receipt of offers and the making of an award, that a pre-qualified supplier is not responsible or that a supplier who is not pre-qualified at the time of bid opening or receipt of offers is responsible.

3.5.13 Multi-Year Contracts

- A. Specified Period. Unless otherwise provided in the budget, a contract for supplies or services may be entered into for periods of more than one year, if funds for the first fiscal year of the contemplated contract are available at the time of contracting. Payment and performance obligations for succeeding fiscal years shall be subject to the availability of funds.
- B. Determination Prior to Use. Prior to the utilization of a multi-year contract, it shall be determined:

- C. Cancellation Due to Unavailability of Funds in Succeeding Years. When funds are not made available to support continuation of performance in a subsequent year of a multi-year contract, the contract for such subsequent year shall be canceled and the contractor shall be reimbursed for the reasonable value of any non-reoccurring costs incurred but not amortized in the price of the supplies and services delivered under the contract. The cost of cancellation may be paid from:
 - 1. Appropriations currently available for performance of the contract;

Such books and records shall be maintained by the contractor for a period of three years from the date of final payment under the prime contract and by the subcontractor for a period of three years from the date of final payment under the subcontract.

3.5.15 Determinations

- A. Written Determinations Required. Each determination or decision shall be based upon written findings of the officer making the determination or decision and shall be retained in the official contract file.

- B. Bids and contracts for said emergency services shall be bid telephonically with response time and agreement to price to be established by the City Manager or designee.
- C. In the event that telephonic bids received are not sufficient, due to price, delivery time, and/or capability of bidder to deliver said services, the City Manager or designee may competitively negotiate with other potential contractors for provisions of services in time of emergency. Every effort will be made to consider local suppliers and contractors for emergency purchases which are outside the normal bid process.

No rabies vaccine shall be acceptable unless it is approved by the Arizona State Veterinarian.

The license fee shall be \$10.00 per year for each neutered male or spayed female dog. The fee shall be reduced to \$6.00 for each neutered male or spayed female dog for senior citizens (age 62 and over). It shall be the duty of each owner who is required to obtain a dog license to pay the license fee to the Animal Shelter on or before the first day of February in each year, or upon acquiring ownership or possession of any unlicensed dog or upon establishing residence in the City. Failure to pay the required fee by the first day of February, or within thirty (30) days of establishing residency in the city, shall result in a fine of \$25.00 for the first offense, \$35.00 for the second offense and \$50.00 for the third and subsequent offenses. Such fine shall be paid to the Animal Shelter within thirty (30) days of notification. The Animal Shelter shall cause a notice of the necessity of paying such license fee to be printed in a newspaper published within the City at least once before the first day of February of each year.

6.2.4 Receipts and Tags

- A. Upon payment of the license fee, the Animal Shelter shall execute a receipt in duplicate. The receipt shall contain the name and address of the owner of the dog, the date of vaccination of the dog against rabies, the type of rabies vaccine used, the year and series number of the metal dog tag issued, a description of the dog, including name, breed, age, color and sex. The Animal Shelter shall deliver the original receipt to the person who pays the fee and shall retain the duplicate. The Animal Shelter shall deliver a metal tag which shall be inscribed with the name of the City, the number of the license and the year for which it is valid, to the person who pays the license fee. Each tag shall be issued for a specific dog and shall not be transferable to any other dog.
- B. The owner shall cause the tag to be permanently affixed by fastening the tag to the collar or harness of the dog in such a manner that the tag may easily be seen by the Animal Control Officer. It shall be the duty of the owner to see that the tag is constantly worn by the dog.
- C. In the event that the owner loses a dog tag, a duplicate may be issued by the Animal Shelter on presentation of a receipt showing payment of the license fee for the current year together with a fee of \$1.00 for each duplicate tag issued.
- D. It is unlawful for any person to counterfeit or attempt to counterfeit a dog tag, or to take from a dog a tag legally placed upon it or place a dog tag upon a dog unless the tag was specifically issued for that particular dog.

6.2.5 Impounding; Notice (0-93-24)

- A. Any dog or other animal found running at large shall be impounded. The ACO or any police officer may, at his discretion, for any humane reason, immediately kill any dog or other animal found at large within the City.
- B. On the impounding of any dog or other animal, the Animal Shelter shall make reasonable efforts to identify and contact the animal's owner to inform them that the animal has been impounded and the steps necessary to redeem the animal.
- C. Each stray dog impounded and not eligible for a sterilization program shall be kept and maintained at the Animal Shelter for a minimum of seventy-two hours or one hundred twenty hours for an animal that is impounded with a microchip or wearing a license or any other discernible form of owner identification, unless claimed or surrendered by its owner. Any person may purchase or adopt a dog on expiration of the impoundment period, if the person pays all pound fees established by the City and complies with the licensing and vaccinating provisions of this article. If the dog is to be used for medical research, a license or vaccination is not required.

6.2.6 Redemption

Any dog or other impounded animal may be timely redeemed from the Animal Shelter by the owner upon providing legal right to possession of the dog or other animal and the payment of an impoundment fee of \$10.00 plus a fee of \$8.00 a day for each day the dog or other animal has been confined in the Animal Shelter in order to defray part of the cost of impounding and maintaining the dog or other animal. If the animal is a dog and unlicensed, the owner must, in addition to the aforementioned fees, pay to the Animal Shelter the license fee for the current year and present a current, valid certificate of vaccination against rabies or obtain such a certificate before the animal is redeemed. If the animal is a cat or domesticated mustelid (eg., skunk or ferret), the owner must, in addition to paying the aforementioned fees, present a current, valid certificate of vaccination against rabies or obtain such a certificate before the animal is redeemed. Any animal subject to licensing that is found without a tag or microchip identifying its owner shall be considered unowned. Tags and microchips

including an owner's or owner agent's current phone number will be used to contact the owner or owner's agent. In addition to the foregoing, to redeem a dog, the owner must demonstrate that the animal has been sterilized and implanted with a microchip for purposes of identification, or must do so before the animal is released to the owner, unless a veterinarian determines that a medical contraindication for sterilization exists that reasonably requires postponement of the sterilization until the surgery or another approved sterilization can be performed in a safe and humane manner.

6.2.7 Disposition of Animals

- A. Any dog or other animal, which is not claimed within the time limits specified in Section 6.2.5 (C) may be purchased or adopted by paying a fee as determined by the Animal Shelter and provided that all of the conditions of A.R.S. 11-1022 are complied with, including the sterilization and vaccination requirements. Any dog or other animal not timely redeemed or purchased may be destroyed.
- B. The ACO shall not take up and dispose of any dog or other animal upon an owner's request, although a property owner or occupant's request to remove a captured wild animal, including a feral cat, from his or her private property shall be honored to the extent feasible. Only under circumstances in which a privately owned or cared for dog or other animal poses imminent and substantial risk to life or property, or must be immediately disposed of for humanitarian reasons, may the ACO properly dispose of said dog or other animal at its owner's request.
- C. The Animal Shelter itself does not euthanize animals, and so will not do so upon an owner's or owner's agent's request; however, special circumstances may prompt animal shelter workers to, if deemed necessary and possible, seek an owner's consent to euthanize a properly licensed and tagged animal prior to the end of a timely redemption period.
- D. When the Animal Shelter is open and available and animals there are being safely and sustainably kept and cared for, any dog or other animal deemed healthy and safe enough to remain in the facility and deemed otherwise appropriate for the facility may remain until redeemed, adopted or purchased, barring emergency or other special circumstances.
- E. Animals received in a condition of terminal illness or mortal injury beyond clinical redemption for any reasonable quality of life may be euthanized.
- F. Animals received in a diseased condition may be euthanized if euthanization is necessary to prevent the spread of disease.
- G.
- H. Animals that for any other reason are deemed inappropriate for the shelter and for whom no other appropriate facilities are timely and affordably available, may be euthanized for humanitarian reasons.

6.2.8 Improper Care

A dog or other animal that is found kept without food, water or proper care shall be taken into custody and impounded by the ACO. It shall be improper care if a dog is kept outside without shelter during periods of extreme weather, including without limitation, extreme heat or freezing temperatures, thunderstorms, tornadoes or snow storms

6.2.9 Reporting of Animal Bites

- A. When on the site where they are housed, all dogs shall be confined in a manner providing them ready access to water and shelter and without posing a risk to the health or safety of the animal.
- B. If a properly fenced area is not available, pulleys, running lines or trolley systems are the preferred methods of confinement for dogs outdoors, because they allow more mobility for the animal. These

systems must be at least 15 feet in length and at least 7 feet above the ground. Dogs shall not be chained, tied, fastened or otherwise tethered to dog houses, trees, fences, residential structures or other stationary objects, including pulleys, running lines or trolley systems, as a means of confining the animal to the property unless each of the following conditions is met:

1. The dog is not restrained in this manner for any continuous period longer than nine (9) hours.
 2. The tether is connected to the dog by a buckle-type collar or a body harness made of nylon or leather, not less than one inch in width.
 3. The tether shall not be less than ten (10) feet in length; shall terminate in a swivel at each end; shall not weigh more than 1/8 of the dog's weight; and shall be free of tangles.
 4. The dog is tethered in such a manner as to prevent injury, strangulation, or entanglement. The tether shall be located at sufficient distance from any fence or other structure from which the dog could potentially hang, were the dog to jump over a fence or to climb and fall off the structure.
 5. The dog is not tethered outside during periods of extreme weather, including without limitation, extreme heat or freezing temperatures, thunderstorms, tornadoes or snow storms.
 6. The dog has ready access to water, shelter, and a clean, dry area. Excrement shall be removed from the area on a regular basis and shall not be allowed to accumulate.
 7. The dog is at least nine (9) months of age. Puppies shall not be tethered.
 8. The dog is neither sick nor injured.
 9. If there are multiple dogs, each dog must be tethered separately.
- C. A dog or other animal that is found kept without food, water or proper care, including confinement that violates this section, shall be taken into custody and impounded by the ACO.

**6.2.10 Interference with Humane Officer
(O-91-06)**

It is unlawful for any person, in an emergency situation, to fail or refuse to permit the ACO to inspect any dog or other animal and the premises on which it is kept to determine whether any provision of this chapter is being violated, or for any person to interfere in any way with the ACO in the performance of his duties. Nothing in this section shall be construed to empower the ACO to enter the house or dwelling place of any person in violation of any requirement for said officer to obtain a search warrant to inspect and search said premises.

**6.2.11 Nuisance
(O-89-16)**

- A. It is unlawful for any person to maintain any animal in such a manner so as to become a public nuisance or to deprive others of the peaceful enjoyment of their lives.

B. Procedure for Viciousness Determination

1. Any person, including the ACO, the Animal Shelter coordinator, the City Attorney, or any citizen, having reasonable grounds to believe a dog is vicious, may petition the City Magistrate for a determination that the animal is vicious.
2. Upon the receipt of the petition, or at any time thereafter, if the City Magistrate finds that there are reasonable grounds to believe that the subject animal meets the definition of "vicious animal", the City Magistrate may order that the animal be impounded on such terms as the Court deems necessary to protect the public safety, pending further review.
3. After notice to the owner of the animal, the City Magistrate shall conduct a hearing to determine if the animal is "vicious" as defined in this Article. The decision shall be based on the preponderance of the evidence presented at the hearing.
4. A viciousness determination hearing may be conducted with and as a part of any other related proceeding involving the same animal and same owner.
5. At the conclusion of this hearing process, the Magistrate may award reasonable attorney's fees to the prevailing person or party.

ARTICLE 6.3 CATS

6.3.2.2 When a cat owner can be identified, the owner will be counseled for a first offense and may be cited for subsequent offenses for failing to control his or her pet. An ACO cannot remove a cat from the property of its owner without the owner's permission unless the health and safety of the animal or others are at risk.

6.3.2.3 When a specific complaint has been made against a cat and the cat has not yet for the purposes of this complaint been captured, the complaining City resident may, by personal check, pay a \$25 refundable deposit to the Animal Shelter for a humane capture trap. Complainant must place the trap in the shade on his or her own premises, place food and water in the trap and immediately telephone the ACO once a cat has been captured. An ACO may not be available on holidays and weekends, so residents shall close the doors of empty traps on those days and as directed by the ACO. As time permits, an ACO may assist complainants to capture a cat-at-large if the complainant(s) require assistance due to advanced age or disability.

6.3.2.4 An ACO who believes that any cat within the city limits is at large, may impound the animal. Upon impounding a cat, the requirements for impounding, redemption and adoption set forth in Article 6.2.5 and 6.2.6

6.3.3 Feral Cats; Colony Caregiver Program

6.3.1A Colony Caregiver Program is hereby established. The Colony Caregiver program is aimed at humanely treating Feral Cats while reducing the feral cat population by spaying and neutering them.

6.3.2 The general outline of the Colony Caregiver Program is as follows. Cats in this program are fed by Colony Caregivers. Colony Caregivers, an ACO, or other volunteers, may trap Feral Cats, take them to the Animal Shelter, where they are spayed or neutered, given a rabies vaccination, microchipped and their ears notched so that they may be identified, then returned to the colony. Kittens may be purchased or adopted.

6.3.3 The Animal Shelter will develop a more thorough protocol and rules for the Colony Caregiver Program, which shall be posted on the City's website.

6.3.4 Residents wishing to become Colony Caregivers must apply to the Animal Shelter, which will determine eligibility.

6.3.5 The success of the Colony Caregiver Program will depend in part on resources. Residents may donate money to the Colony Caregiver Program.

This fee exemption shall only be applicable to that portion of any such permit directly associated with the installation of any such solar device and shall not exempt other building components from the generally applicable fees. This fee exemption shall not apply to the installation of skylights, windows or other means of providing natural lighting or to building designs that employ passive solar heating or cooling methods for the structure.

- B. "Gross subscriber receipts" means all cash, credits, property or other consideration of any kind or nature received directly or indirectly by the licensee, its subsidiaries, parent or any subsidiary of its parent, arising from, attributable to, or in any way derived from the sale or exchange of cable services by the licensee within the City. Gross subscriber receipts includes, but is not limited to, monthly fees charged to subscribers for basic service; monthly fees charged to subscribers for any optional, premium or per-channel or per-program service; monthly fees charged to subscribers for any tier of service other than basic service; installation, disconnection, re-connection and change-in-service fees; leased channel fees; fees, payments or other consideration received from programmers for carriage of programming on the system (excluding reimbursements for launch expenses); converter fees, rentals or sales; studio rental, production equipment and personnel fees (but not for non-cable purposes); advertising revenues; revenues derived by the licensee from home shopping channel sales to City residents; and sales, exchange or cablecast by the licensee of any programming developed on or for access channels or institutional users. If at any time there is a final non-appealable determination by the Federal Communications Commission or a court with jurisdiction over the City determines that revenues received by the licensee from the delivery of Internet access service over its cable service must or may, in effect, be included in gross subscriber receipts, licensee will promptly notify the City of such change in the law and license fees will be assessed on such revenues. Advertising and home shopping revenues shall be allocated on a pro-rata basis based on the proportion of total subscribers on the licensee's cable system represented by subscribers residing within the City. Gross subscriber receipts shall be the basis for computing the license fee imposed pursuant to Section 8.3.18 hereof. Gross subscriber receipts shall not include any taxes on services furnished by the licensee (other than the license fee) which are imposed on any subscriber or user by the state, county, city or other governmental unit and collected by the licensee on behalf of said governmental unit.
- C. "License" means the right and authority granted by this article to a licensee to construct, maintain and operate a cable television system through use of the public streets, other public rights-of-way or the public places in the City.

This article shall be construed liberally in order to effectuate its purpose. Unless otherwise specifically prescribed in this article, the following provisions in addition to those in Chapter 1 of this code shall govern its interpretation and construction.

- A. Licensee shall have no recourse whatsoever against the City for any loss, cost, expense or damage arising out of any provision or requirement of this article or the enforcement thereof.
- B. This article does not relieve licensee of any requirement of this code, any ordinance, rule, regulation or specification of the City including, but not limited to, any requirement relating to street work, undergrounding of utility facilities, including cable system facilities, or the use, removal or relocation of property in streets.

8.3.3 Purpose and Intent

It is the purpose and intent of this article to prescribe the conditions for granting a license to engage in the business of operating a cable system in the City. It is the further purpose and intent of this article that the licensee provides the citizens of the City a high quality cable television service.

8.3.4 License

A nonexclusive license may be granted by the adoption of a resolution to a licensee for receiving, distributing and supplying radio, television and other cable communication services along, across and upon the public streets, ways, alleys and places within the City.

- D. A statement setting forth all agreements and understandings, whether written, oral or implied, existing between the applicant and any person who proposes to have an ownership interest with respect to the proposed license or to the proposed cable television operation. If a license is granted to a person posing

If good faith renegotiations prior to the end of the term of the license do not result in agreement between the City and the licensee for continuance of the license, the license shall terminate without further action by the City at the end of its first twenty-five year term.
- C. The term of any renewal license or term of any extension or grant of a new license after January 1, 2003 shall be fixed and determined by the City in the resolution granting any renewal, extension or grant of a new license. The term of any renewal, extension or grant of a new license may be conditioned on such terms as the City Council deems necessary or proper, including, but not limited to, the configuration, upgrade or changes to the licensee's cable or information system at the discretion of the City.

In order that existing subscribers shall not be unfairly burdened, where one hundred fifty feet or more of line or cable is required, or where under grounding of cable is required to reach the proposed subscriber, in such cases special rates (including a capital contribution) may be negotiated with the proposed subscriber. Absent a non-refundable capital contribution, licensee shall not be required to extend service to an area unless at least thirty-five subscribers per strand mile request service.

- A. In the event that (1) the use of any license property is discontinued for any reason for a continuous period of twelve months; (2) license property has been installed in a street or other dedicated public right-of-way without complying with the requirements of this article; or (3) the license has been terminated, canceled or has expired, licensee at its expense shall, at the demand of the City, remove promptly from the street or other dedicated public right-of-way, all license property other than any which the City may permit to be abandoned in place. In the event of any such removal, the licensee shall promptly restore to a condition as nearly as possible to its prior condition the street or other public places in the City from which license property has been removed.

- C. The licensee shall maintain and pay for sufficient liability insurance to satisfy the deductible requirement of the City's liability insurance coverage, such insurance to insure the City and the licensee with regard to all damages charged against the City or the licensee resulting from the installation, development, maintenance or expansion of the cable system authorized by this article in not less than the following amounts:

- B. The City Clerk may make written demand that the licensee do or comply with any such requirement, limitation, term, condition, rule or regulation. Notwithstanding the foregoing, the nature and extent of evidence which may be presented by the City Manager in any subsequent Enforcement Hearing pursuant to section 8.4.5., subsection (D) shall not be limited or abridged by reason of the presentment or non-presentment or recitation of non-recitation of such evidence in the course of the informal resolution efforts.

To the extent reasonably consistent with the goal of obtaining compliance with the Regulations, it shall be the policy of the City to notify the Company of a possible or alleged violation and, if said violation is then curable, allow a reasonable time for the Company to cure the possible or alleged violation. If the Company does so cure, in the absence of aggravating circumstances, it shall be the preference of the City to abstain from further enforcement action.
- C. Determination of Probable Cause for Enforcement Hearing. In the event that the informal efforts at resolution are ineffective or otherwise inappropriate:

If the hearing is conducted by a hearing officer, the officer shall, upon conclusion of the hearing, prepare a recommended decision which includes findings of fact and conclusions. 9.1.4 Rates

(O-90-18; O-91-32; O-94-03; O-94-12; O-99-07; O-06-14; O-07-08; O-08-15;
O-10-10, O-11-10; O-17-04)

It shall be the responsibility of the City Council to review all rates as referred to in this Section on an annual basis. The review shall commence not later than April 1 of each year and be completed by May 31 of the same year. Any change in rates will be subsequently reflected in the following year's annual budget beginning on July 1. The following service fees shall be assessed for garbage collections:

- A. Residential Class, single family residence only, within the corporate limits of the City of Bisbee - \$20.40 per month. A service fee shall apply to all inhabitable single family residential dwellings based upon the costs of making adequate services available to the dwelling, regardless of whether such service is used in any particular month. The frequency of garbage collections shall be determined by the City Manager, or designee.
- B. Commercial class, including multi-family and industrial collection, within the corporate limits of the City of Bisbee. The service fee shall apply to all businesses based upon the costs of making adequate services available to the business regardless of whether such service is used in any particular month.
 1. Where individual container(s) cannot be assigned to an individual commercial account, the per month service fee shall be:
 - a. Small Business. Examples include, but not limited to; small offices, home business.
per month = \$ 33.64
 - b. Small Intermediate businesses. Examples include, but are not limited to small cafes, duplex, triplex and four-plex housings, bed and breakfasts, hotels, motels with ten (10) or less units.
per month = \$ 57.20
 - c. Intermediate business. Examples include, but are not limited to restaurants, bars and apartment houses, bed and breakfasts, hotels and motels with more than ten, but less than twenty-six (26) units.
per month = \$ 163.85
 - d. Large business. Examples include, but are not limited to apartment complexes, bed and breakfasts, hotels and motels with more than twenty-five (25) units.
per month = \$ 323.67

- e. Minimum Commercial. Examples include, but are not limited to part-time business located in commercial buildings not occupied more than thirty (30) hours per week, maximum of one (1) employee. per month = \$ 22.43
2. Where individual container(s) can be assigned to an individual commercial account, the per month service fee shall be calculated by summing the following components:
- Disposal factor = \$3.18 per cubic yard (Disposal factor) x (number of containers) x (size of containers in cubic yards) x (number of pickups per week x 52/12).
(Containers: medium = 1.5 cy, large = 3.0 cy)
 - Collection factor = \$1.18 per pickup (collection factor) x (number of containers) x (number of pickups per week x 52/12).
 - Administration factor = \$ 4.01 per month.
 - Example - Two (2) large containers picked-up four (4) times per week:

Disposal = (\$2.74) x (2) x (3.0 cy) x (4x52/12)	= \$ 284.94
+ Collection = (\$1.18) x (2) x (4x52/12)	= \$ 41.06
+ Administration	<u>= \$ 4.01</u>
	= \$ 330.01
3. Commercial pickup per week shall be a minimum of two (2).
4. The maximum weight of refuse allowed per container per pickup shall be 300 pounds for a large container and 150 pounds for a medium container. If more than one container is assigned to an account, the maximum weight allowed shall be the sum of the maximum weights.
5. In the event that an individual account's container(s) may contain more than the maximum weight allowed, the Public Works Director may initiate a random weight check of the refuse.
- The weight check shall consist of a minimum of two (2) weight checks within a thirty (30) calendar day period. If the weight check shows a violation of the maximum weights allowed, the Public Works Director shall cause an adjustment of the fee charged to the account.
 - The fee shall be adjusted by determining the minimum number of containers and/or pickups per week required to adjust the account to eighty percent (80%) of the maximum weight allowed based upon the actual average weight check per container.
 - The adjusted fee shall begin and be charged to the account beginning the first full month after the determination of violation of maximum weight allowed. Notice of change shall be sent to the account by regular and certified mail. The adjusted fee shall remain in effect for a minimum of three (3) months.
 - The account may request, in writing, to the Public Works Director for a review of the basis for adjusted fee within thirty (30) calendar days after the date notifications are mailed to the account. If such a review is requested, the average actual weight check per container must be less than eighty percent (80%) of the maximum weights allowed to cause a readjustment of the fees.
 - Example: The account has three (3) large containers picked up three (3) times per week. A weight check is made with an average weight of 1,200 pounds per pickup or 400 pounds per containers.

Adjustment:	
400 lbs. X 3 containers X 3 pu/wk	= 3,600 lbs.
3,600 lbs./(300 lbs. x 80%)	= 15 pu/wk
15 pu/wk / 3 containers	= 5 pu/wk

The adjustment would be based on the same number of containers with pickups per week increased from three (3) to five (5).
- C. Areas and Days of Yard Debris and Special Pickup Collection - The City has been divided into two (2) yard debris collection areas. Each collection area will be serviced every other Wednesday. During this day, City

The branches and limbs must be cut into 3 foot or smaller lengths and tied into bundles not to exceed thirty-five pounds. The total amount of yard debris allowed per pickup is 2 cubic yards. All requests for yard debris pickup must be made to the Public Works Department by 5:00 pm on the Monday preceding the scheduled Wednesday pickup. Materials for pickup shall not be set out prior to the Saturday before the scheduled pickup.

A fee of THIRTY DOLLARS (\$30.00) plus the per item fee for any special waste that will be charged by the Cochise County Transfer Station, will be required for such special pickups. A maximum of two cubic yards or 750 pounds will be picked up for the initial fee of thirty dollars.

A Service fee, if in excess of the initial two yards or 750 pounds, shall be calculated by summing labor, equipment and disposal cost needed to do the collection:

Large dump truck (greater than 5 cy)	= \$ 25.00/hour
Small dump truck	= \$ 15.00/hour
Pickup truck	= \$ 10.00/hour
Loader	= \$ 35.00/hour
Labor (per person)	= \$ 15.00/hour
Disposal =	= Fee posted fee at Transfer Station
The increment of time shall be by the quarter hour.	

Requests for special pickup must be made to the Public Works Department by 5:00 pm, the Monday preceding the scheduled Wednesday pickup, and must be paid in full in advance. Materials shall not be set out prior to the Saturday before the scheduled pickup.

D. ONE TIME DELINQUENT ACCOUNTS FORGIVENESS OPTION; COLLECTION ON DELINQUENT ACCOUNTS

To take advantage of this option, the Account Holder must enter into an agreement with the City by no later than the effective date of this Article. The Account Holder shall agree to enter into an agreement with the City in which the monthly payments for the remaining balance due are paid via direct debit from a bank account. Should the bank account contain insufficient funds when the City attempts to process a payment, the City will charge the account holder a \$15.00 non-sufficient funds fee.

During the six month period in which the Account Holder is making payments, the City will waive the monthly penalty and interest accrual. Upon timely and full payment of the remaining balance due, any liens on the Account Holder's property shall be released by the City. The City will also remove the Account Holder from the Arizona debt setoff program upon timely and full payment of the remaining balance due. Should the Account Holder fail to pay the remaining balance due within the six month period, all penalties and interest shall be reinstated in full and a lien will be placed on the property for the full amount owed, if applicable. Likewise, the Account Holder may be referred to the Arizona debt setoff program and to a collection agency, at the City's option. For each property in which an Account Holder takes advantage of this option, as described above, the City shall install a sewer shut-off valve at the serviced property if one does not already exist.

An Account Holder that elects to take advantage of this forgiveness option, may elect to immediately pay off the balance owed, as calculated by the City, via money order or cashier's check, and bypass the six-month repayment plan described above.

An Account Holder may request such consideration and determination by filling out an Application provided by the City. Adequate proof or documentation shall be presented in support of a request made under this section if requested by the City. 2. A Certificate of Burial Right entitles the owner or beneficiary of the certificate to use the designated space as a place of burial, provided that the purchaser does not violate the regulations applicable to any such certificate. This certificate constitutes a right of use of the designated cemetery plot for interment, subject to all applicable rules and regulations, and does not constitute a sale or transfer of the ownership of the associated real property.

3. Any person may purchase a Certificate of Burial Right in his or her name or in the name of any family member, living companion or friend, prior to the time of need. The purchase price of a certificate that is purchased for use by a City resident prior to the time of need shall be twenty percent (20%) greater than the regular plot fee applicable at that time.

ARTICLE 9.7 REGULATION OF DISPOSABLE CARRYOUT BAGS
(O-13-14;O-11-21)

9.7.1 Findings and Purpose

The Mayor and Council of the City of Bisbee hereby find that:

- A. The widespread practice by retail stores of supplying disposable carryout bags to their customers results in a significant amount of waste material and creates additional burdens on the City's solid waste collection system, resulting in more costs to the City and its citizens.
- B. Plastic carryout bags in particular result in a significant amount of wind-blown litter throughout our high desert landscape, resulting in visual blight and adverse impacts upon this environment. The fact that these plastic bags do not decompose, but only break down into smaller particles, results in the potential for their chemical components to be ingested or taken up by other organisms, with potentially harmful effects to the natural environment.
- C. Carryout bags that are not properly disposed of can result in clogged sewer lines and otherwise adversely impact the City's sanitary sewer systems and give rise to costly repairs and maintenance of public infrastructure.
- D. The production and delivery of disposable carryout bags consumes a large amount of both renewable and non-renewable resources on an annual basis, and even though, these account for only a small percentage of our total national use of oil and natural gas, this usage still constitutes a significant amount of total energy expended on what is essentially waste material.
- E. The amount of waste material being produced, the amount of energy being consumed, and the amount of litter in our local environment will all be reduced if the use of disposable carryout bags in our community is reduced and the use of reusable carryout bags is encouraged.
- F. For that reason, the Mayor and Council enacted Ordinance O-13-14, effective on Earth Day, 2014, prohibiting retailers from providing customers with single-use plastic bags.
- G. Ordinance O-13-14 proved very effective for the purposes intended.
- H. Notwithstanding the effectiveness of the Ordinance, the Legislature enacted A.R.S. § 9-500.38, which prohibits cities from enacting and maintaining such ordinances.
- I. The Legislature also enacted SB1487, allowing a single legislator to file a complaint with the Attorney General, which initiates an investigation by the Attorney General to determine if a local law violated State law; and in the event that the Attorney General makes such a determination, the result is that a city will lose its State shared revenue if it does not bring its challenged law into compliance.
- J. On September 28, 2017, Senator Warren Petersen (Mesa) filed a request with the Attorney General to investigate Ordinance O-13-14 to determine its validity.
- K. On October 10, 2017, the City Attorney submitted a response to the Attorney General, defending the validity of Ordinance O-13-14.
- L. On October 24, 2017, the Attorney General rendered its opinion, determining that Bisbee's plastic bag ban ordinance violates State law.
- M. Accordingly, in order to avoid losing its State shared revenue, the Mayor and Council have determined to eliminate the mandatory nature of the plastic bag ban and instead make it voluntary, meaning that the City of Bisbee will take no adverse action (whether zoning, licensing or otherwise) against any person or entity that chooses to not voluntarily follow these revised provisions.

9.7.2 Definitions

(O-98-20; O-97-28; O-97-24; O-91-33; O-91-15; O-91-04; O-90-36; O-90-35; O-89-17; O-88-19; O-00-18; O-01-09; O-02-15; O-03-17; O-04-14; O-06-21; O-07-12; O-08-14; O-09-18; O-11-08; O-11-09; O-12-13; O-13-17; O-17-08)

A. Formula, Units of Contribution, Rates per Unit (O-07-12)

1. Except as otherwise provided in this Article, each Account Holder who maintains a connection to the City's sanitary sewer system shall pay the monthly fees to the City to off-set the City's costs of providing this service. Except as otherwise specified below, the fees for these services are based on the costs of making adequate wastewater service available for each connected property and not on the amount of usage by that property for any particular month. For those uses for which a specific fee is not specified below, the following formula shall be used to calculate the user charges for wastewater systems for the City of Bisbee and its service area:

$$C_u = (C_t/V_t) V_u$$

Where:

C_t = Total operation and maintenance (O&M) costs per unit of time.

C_u = A user's charge for O&M per unit of time.

V_u = Volume contribution from a user per unit of time.

Vt = Total volume contribution from all users per unit of time.

In the event biochemical oxygen demand (BOD), suspended solids, or other pollutant concentrations from a user exceed the range of concentration of these pollutants in normal domestic sewage, a surcharge added to the base charge (above) will be levied. The surcharge will be computed by the formula below:

$$Cs = (Bc (B) + Sc(S) + Pc (P)) Vu$$

Where:

Cs = A surcharge for wastewater of excessive strength.

Bs = O&M cost for treatment of a unit of BOD.

B = Concentration of BOD from a user above a base level.

Sc = O&M cost for treatment of a unit of suspended solids (SS).

S = Concentration of SS from a user above a base level.

Pc = O&M cost for treatment of a unit of any pollutant

P = Concentration of any pollutant from a user above a base level.

Vu = Volume contribution from a user per unit of time.

2. Units of Contribution (O-07-12)

Based on an analysis of the users who are connected to the wastewater facilities, users shall be classified into:

- a. Residences, including apartments, for which the rate shall be based on an average monthly presumptive use of 5,900 gallons per residence; and
- b. Small non-residential uses including commercial, governmental and public facilities converted to an equivalent number of residential units by the following formula:
Units = Non-Residential User Average Monthly Water Use, 5,900 gallons
- c. Large commercial and industrial users rates shall be calculated based upon the formula in Section 13.2.2(A.1) and 13.2.2(A.2.(b)), as applies.

3. Rates, Fees and Service Charges

Rates for the following classes and types of property uses shall be assessed monthly and collected monthly, as of the date of the billing, in accordance with the following schedule stated below. Fees and charges for the additional designated services shall be charged as indicated.

a. Residential 1.000 unit	=	\$ 47.60
b. Commercial (No residential occupancy) Classes:		
1) Small retail, professional and office business		
1.1294 units	=	\$ 53.79
2) Small restaurants, cafes, snack bars, etc. (less than 4 employees)		
1.9362 units	=	\$ 92.07
3) All bars, restaurants (more than 4 employees)		
3.2252 units	=	\$153.59
4) Hotels, motels, bed & breakfast, and all other transient lodging, including RV parks (based upon estimated average occupancy)		
.5999 units per room or space	=	\$ 28.58
5) Large retail (5 or more employees)		
5.000 units	=	\$238.12

Mixed business and residential occupancy shall pay the sum of the applicable business rate plus the number of residential units. Mixed business occupancy shall pay the sum of applicable uses, except where all plumbing units are jointly used, where no separation of uses is applicable, and no other and separate plumbing is available on the premises, in which case the greater rate shall solely apply.

- c. A policy providing for discounts for low-income households, is hereby established:
- 1) Account Holder shall pay a discounted sewer rate of \$14.28 per month, upon application provided income for the household is at or below fifty percent (50%) of the federal poverty guideline for a two-person household and the householder provides proof of income.
 - 2) Account Holder shall pay a discounted sewer rate of \$28.57 per month, upon application, provided income for the household is no more than one hundred percent (100%) of the federal poverty guideline for a two-person household and the Account Holder provide proof of income.
 - 3) Proof of income shall consist of the Account Holder's last federal income tax return or such other proof as may be satisfactory to the City. Proof of income shall be presented yearly.
 - 4) Notwithstanding the provisions of Section 13.2(C)(1) and (2) above, the City Manager, Finance Director and Public Works Director are hereby jointly authorized to waive or reduce sewer rates for any designated, low-income residential Account Holder for any period of time up to six months where exigent circumstances would cause higher rates to cause an undue hardship to the household. "Exigent circumstances" shall mean any one time or temporary emergency event or circumstance that severely limits or prevents the payment of existing sewer rates. Adequate proof or documentation shall be presented in support of a request made under this section.
 - 5) A designated low income residential account holder shall not be eligible for more than one discounted sewer rate, which shall be applicable to only one owner-occupied residential property.

The deposit will be refundable if all payments are made on time and after full payment of the final bill for services. The Account Holder is responsible for notifying the City when a service agreement should be terminated.
 - 3) An inspection fee of \$100.00 will be charged to the Account Holder for the inspection of each prior service connection that is physically disconnected from the City's sewer system, as necessary to confirm that this disconnection has been completed in an appropriate manner. If any subsequent, additional inspection is required at the same site, the Account Holder shall be required to pay for all of the labor and equipment charges incurred by the City that are required for any such additional work.
 - 4) An inspection fee of \$100 will be charged for the inspection of the installation of each shut-off valve that is installed by the Account Holder, as necessary to confirm that any such valve has been properly installed. If any subsequent, additional inspection is required at the same site, the Account Holder shall be required to pay for all of the labor and equipment charges incurred by the City that are required for any such additional work.
 - 5) An activation or de-activation fee of \$25.00 shall be charged to the Account Holder for each time that a City employee is required to turn on or turn off a shut-off valve at a particular location in connection with either re-establishing service or terminating service at that location.
 - 6) An Account Holder shall be charged the labor and equipment costs incurred by the City, not to exceed \$500.00 at each location where City employees physically disconnect the

- property from the City's sewer system, as may be authorized under these regulations. The Account Holder shall also be responsible for the actual costs of all parts and equipment that may be installed at each location.
- e. The City Manager, Public Works Director, and Finance Director will jointly consider and determine, at their discretion, whether exceptional circumstances, including but not limited to those circumstances described in Section C(4) above, require complete waiver or a reduction in service fees for a reasonable amount of time. They may also consider a change in an Account Holder's bill, including a complete waiver of the balance owed, if reasonable grounds exist. An Account Holder may request such consideration and determination by filling out an Application provided by the City. Adequate proof or documentation shall be presented in support of a request made under this section if requested by the City. A decision shall be made within 30 business days from the date the Account Holder submits an Application to the City, unless the City is waiting for proof or documentation to be supplied by the Account Holder. Should an Account Holder fail to provide requested documentation or proof within 10 business days of the City's request, the Application may be denied. A decision shall be made concerning an Application no later than 60 days from the date the Application is submitted to the City. Any decision made pursuant to this section shall be final and non-appealable.
4. Discharge into Sewer System other than by Permanent Connection, Septic Tank Wastes, Permits Required.
 - a. It shall be unlawful for any person to discharge any waste of any kind into the Bisbee City Sewer System other than through a permanent connection approved by the City for residential, commercial or industrial use, without obtaining a permit for such discharge from the Public Works Director.
 - b. It shall be unlawful for any person to discharge any waste material pumped from any septic tank into the Bisbee City Sewer System without obtaining a permit for such discharge from the Public Works Director.
 - c. Permits for the discharge of approved waste materials shall be issued upon the payment of \$15.00 per each thousand gallons of such material.
 - d. The Public Works Director is authorized to issue such other regulations for the issuance of permits as are necessary for the safe and lawful operation of the City's Sewer System.
- B. Management of Revenue, Notification of Users, Prohibition of Inconsistent Agreements and Appeals
Financial Management System - The City of Bisbee will maintain a Financial Management System that will accurately account for revenues generated by the system and expenditures for operation and maintenance (including replacement) of the collection and treatment system. The City will establish a separate account in its existing computer accounting system to monitor, on a quarterly basis, both revenues generated and expenditures for the system.
 1. Notification of Property Owners (O-07-12) - Each property owner or customer who is connected to the City's sewer system will be notified, at least annually, in conjunction with a regular bill, of the rate and that portion of the charges which are attributable to wastewater collection and treatment services.
 2. Inconsistent Agreements (O-07-12) - These fees shall take precedence over any terms or conditions of agreements or contracts between the City of Bisbee and users (including industrial users, special districts, other municipalities or Federal agencies or installations) which are inconsistent with the requirements of 204(b)(1)(A) of the Clean Water Act or these regulations. No special rate may be applied to any user.

3. Wastewater Treatment By-Products (O-07-12) - All revenue from the sale of treatment-related by-products shall be used to offset the cost of operation and maintenance. Fees shall be proportionally reduced for all users. Total annual revenues received for the sale of a by-product shall be credited to the treatment works O&M cost no later than the fiscal year immediately following their receipt.
 4. Appeal (O-07-12) - In the event a property owner connected to the City's sewer system, in any class, wishes to appeal his or her classification, the property owner may, at the property owner's sole expense and option, install and maintain a sewer line meter to record the flow of effluent. The City of Bisbee must be notified, in writing, of the property owner's intent to install a line meter for this purpose. One year after both, 1) written notification to the City and 2) installation of the sewer line meter, the property owner may appeal to the City Council, in writing, for an adjustment to the fee. Any appeal must be accompanied by certification of inspection of this meter, by the City for the full year. No adjustment may be made for any time period prior to initiation of this procedure and installation of the sewer line meter. Any adjustment must be based upon effluent flow as documented by the sewer line meter and inspected by the City and the average cost of making these services available to that property, less the demonstrated marginal costs saved by the City as a result of not having to treat an average amount of discharged waste from that property.
- C. The Council shall regulate and change the rates, fees and service charges by ordinance and pursuant to state law as it becomes necessary to meet the obligations of the City for the municipal sewer system.
 - D. The Account Holder's fee shall be billed on a monthly basis. All fees shall be due and payable as of the date of billing. A service charge shall be added to all accounts for which full payment (including prior penalties) is not received on or before the 25th day of the month. The Service Charge shall be Three Dollars (\$3.00) for each month in which full payment is not received by the 25th day of that month. Interest at the rate of ten percent per annum, or at such other rate as may be prescribed by A.R.S. § 44-1201 shall be charged on a monthly basis on all delinquent amounts. The City may elect to refer an Account Holder to the Arizona debt setoff program pursuant to state law, in which case the Account Holder's state income tax refund or property tax credit or rental credit may be used to offset the debt owed to the City by the Account Holder. The City may also elect to refer the Account Holder to a debt collection agency.
 - E. Except as otherwise provided in this Article, all Account Holders, of premises with a sewer connection to the City's Wastewater Collection System are legally responsible for the fees imposed under this Code.
 - F. The Finance Director, or his or her designee, shall monitor the status of the payments on all accounts. For any property that becomes 30 days delinquent in paying sewer service fees, the Finance Director, or his or her designee, will send out a notice to the Account Holder in writing that advises of the delinquency. The notice will provide the Account Holder with 45 days to bring the account current. If the account is not paid in full within 45 days from the date of the notice, the City will disconnect the property from the sewer system. Upon notification from the City, the water company will also disconnect the property from water service. Disconnection from sewer services will occur on the 46th day from the date of notice or as soon as reasonably possible thereafter. The Account Holder is solely responsible for any disconnection and reconnection fees and costs associated with the sewer and water services. The Account Holder will be required to make a two month deposit before sewer reconnection will occur. Acceptable forms of payment to bring an account current, as well as associated fees and costs, shall be in the form of a money order or cashier's check only.

13.2.3 SPECIAL REGULATIONS FOR RESIDENTIAL PROPERTIES NOT OCCUPIED BY THE OWNER.

- A. Pursuant to A.R.S. § 9-511.01 state law, for residential property of four or fewer units, the City is prohibited from requiring payment of unpaid wastewater service rates and charges by anyone other than the person who the municipality has contracted with to provide the service, who physically resides or resided at the property and who receives or received the service. Any such property owner or other person, at his or her sole discretion, may contract for wastewater service with the City and provide payment.
- B. For rental residential property or four or fewer units for which the property owner elects to terminate any existing agreement for wastewater services under the applicable state law, the following provisions shall apply:
 - 1. The Finance Director, or her designee, shall charge any prospective tenant a refundable deposit of two (2) times the applicable monthly sewer fee rate and shall require the payment of the first full month's sewer fee and all applicable new account and start-up fees as a condition for the issuance of a Service Agreement and the Residential Certificate of Service Agreement. This deposit shall be refunded at the conclusion of the tenant's occupancy, subject to any deductions for unpaid services and other applicable fees and expenses. It is the responsibility of the tenant to notify the City when the tenant wishes to terminate the service agreement.
 - 2. Pursuant to state law, owners of residential properties are required to notify the Cochise County Assessor that their properties are being rented. The City will therefore determine which residential properties are being leased by periodically obtaining records from the Cochise County Assessor's Office.
 - 3. Upon the City's determination that a residential property is being lease and the City is providing sewer service to the property, but payments

ARTICLE 13.3 SEWER CONNECTION PERMITS AND FEES
(R-87-396; O-89-14; O-93-13; O-06-13; O-11-08)

- A sewer hook-up fee, as provided by resolution of the Council, shall be made for each hook-up.
- A. Each person or entity that desires to connect a building or house sewer to the City's public sewer shall first obtain a Sewer Connection Permit from the Bisbee Director of Public Works. As a condition for issuing this permit, the applicant shall provide all of the information required by the Director of Public Works as necessary to properly identify the owner, fully describe the intended occupancy to be connected and identify the nature and location of all work to be performed to complete this connection, including the size and type of the materials to be used. The Director of Public Works is authorized to develop a permit form for this purpose and to issue a Sewer Connection Permit provided that the applicant has provided all of the required information, paid the required connection fee and entered into a service agreement on a form provided by the Director of Finance.
 - B. Upon the issuance of a Sewer Connection Permit, the owner or agent of the owner of the property to be connected to the Bisbee sewer shall, at his or her own expense, bring the building or house sewer line to the point of connection to the City sewer main and shall complete all such construction in the manner required by all applicable regulations. A sewer shut-off valve, as approved by the Public Works Director, shall be installed at the connection with the City's sewer line.
 - C. The City of Bisbee shall charge a Sewer Connection Permit fee as necessary to recover the costs associated with providing this sewer service and the costs of maintaining and operating the sewage treatment plant. The fee for the Sewer Connection Permit will be determined as follows:
 - 1. For each single family residential unit, based upon an estimated sewerage demand of two hundred (200) gallons per day, a fee of two thousand dollars (\$2,000) per connection.
 - 2. For each connection for all other types of uses at a single family residential unit, a fee of ten dollars (\$10.00) for each gallon of daily sewerage demand associated with that particular occupancy. For purposes of determining the sewerage demand associated with any particular occupancy, the Director of Public Works will use Table 1, Unit Daily Design Flows, as included in the Arizona

Administrative Code, R-18-9-E301, et seq, as adopted effective January 1, 2001, to make this determination.

- D. The Mayor and Council may waive this connection fee, upon the recommendation of the City Manager and the Public Works Director, in those situations in which this is a necessary condition for the award of grant funding or other financial support for related improvements to the City's wastewater collection or treatment facilities and any such waiver would be in the best interests of the City of Bisbee.

ARTICLE 13.4 CITY AND CONSUMER RESPONSIBILITIES

(O-11-08)

13.4.1 City Responsibilities and Liabilities

- A. The City shall not be responsible for the installation, maintenance or inspection of the consumer's service line, piping and apparatus or for any defects therein.
- B. The City shall have the right to refuse service, unless the consumer's lines or piping are installed in such manner as to prevent cross connections or backflow.
- C. Under normal conditions, the consumer shall be notified of any anticipated interruption of service.
- D. The City shall not be responsible for the negligence of third persons or forces beyond the control of the City resulting in any interruption of service or damage to the property of the consumer.
- E. The City may refuse service to any prospective consumer when the capacity of the sewer system will not permit additional loads being placed thereon.

13.4.2 Consumer Responsibilities and Obligations

- A. Building or house sewer connections on the consumer's premises shall be so arranged as to provide service to one lot. If additional service is required, it will be considered as a separate and individual account.
- B. The consumer's house or building service line, sewer connection and apparatus shall be installed and maintained by the consumer, at the consumer's expense, in a safe and efficient manner and in accordance with the City's rules and regulations and in full compliance with the regulations of the State Department of Health Services. Failure to comply with such regulations relieves the City of any and all liability from injury or damage proximately caused therefrom.
- C. The consumer shall safeguard the City's property placed on the consumer's premises and shall permit access to it only by the authorized representatives of the City.
- D. In the event that any loss or damage to the property of the City or any accident or injury to persons or property is caused by or results from the negligence or wrongful act of the consumer, his agents or employees, the cost of necessary repairs or replacements shall be paid by the consumer to the City and any liability otherwise resulting shall be assumed by the consumer. The amount of such loss or damage or the cost of repairs may be added to the consumer's bill.
- E. The City may discontinue sewer service for the following additional reasons:
1. To prevent fraud or abuse.
 2. The consumer's willful disregard of or refusal to comply with this article or other rules as may be adopted by the Council, including the obligation to pay for these services.
 3. To terminate service to a residential property that is not occupied by the owner and for which neither the owner nor the tenant has entered into a contract for sewer services.
- F. When service to a consumer shall require the laying of any City sewer lines or the installation of any other City property on, under, across or over the consumer's property, the consumer will grant to the City an easement, right-of-way or license for such installation.
- G. With the exception of residential rental properties of four or fewer units, when a property owner maintains a connection to the City sewer network and ultimately to the City's wastewater treatment facility for the

disposal of wastewater, and the City continues to provide maintenance of its sewer mains and associated network and continues to operate its wastewater treatment facility, this exchange of benefits shall constitute a contract between the parties whereby the City agrees to continue to provide such services, subject to the continuing availability of its resources to do so, and the property owner agrees to pay the required fees for such services and to abide by the rules and regulations that are applicable to such services. This agreement may only be terminated as may be required by applicable state law, pursuant to the procedures specified in this Article.

13.4.3 Interference with Employees of the City

It is unlawful for any person:

- A. To interfere in any way with the employees of the City in the discharge of any of their duties, either in the tapping of any sewer pipe, main or lateral belonging to the City or in the laying or connecting of such pipe, main or lateral.
- B. To dig up or cause to be dug up any street or alley in the City for the purpose of connection with the sewer system of the City without first obtaining a permit from the City.
- C. Who, having a permit, to dig up any portion of any street or alley of the City for the purpose of connecting with the sewer system of the City to fail or neglect to place the street or alley in its original condition under the superv

- B. It is unlawful to discharge to any natural outlet within the City or in any area under the jurisdiction of the City any sanitary sewage, industrial wastes or other polluted waters, except where suitable treatment has been provided in accordance with provisions of this chapter.

13.4.5 Private Sewage Systems

- A. Compliance with Article. Except as provided in this article, it is unlawful to construct or maintain within the City any privy, privy vault, septic tank, cesspool or other facility intended or used for the disposal of sewage.
- B. When Permitted; Sanitation. Where a public sanitary sewer is not adjacent to the premises, the building sewer shall be connected to a private sewage disposal system, which complies with the regulations of the State Department of Health Services. Such private sewage disposal system shall be constructed, maintained and operated at all times in a sanitary manner. Where circumstances of grade, terrain or similar condition prevent the ordinary hook-up to a public sanitary sewer adjacent to the premises, the Public Works Director and the Mayor may, in writing, waive the requirement to connect. In this event, all regulations regarding connection to a private sewage disposal system shall apply. (O-88-04)
- C. Discontinuance. Within one year after a public sewer becomes available to a property served by a private sewage disposal system, a direct connection shall be made to the public sewer in accordance with the provisions of this chapter, and any septic tanks, cesspools and similar private sewage facilities shall be abandoned and filled with suitable material. The City shall notify all owners when service is available, and the one year time limit specified in this subsection shall run from the date of said notice.

13.4.6 Tampering with Equipment Prohibited

13.4.8 Building Connections

- A. No building sewer will be connected to the building connection until it has been inspected and approved by the City.
- B. The City Clerk shall keep a record of all building connections made, the purpose for which they are to be used, together with the name of the owner of the property, his agent or representative.

ARTICLE 13.5 USE OF PUBLIC SEWERS**3.5.1 Prohibited Substances**

- A. No person shall discharge or cause to be discharged any storm water, swimming pool water, surface water, ground water, roof runoff, subsurface drainage, cooling water or unpolluted industrial process waters into any sanitary sewer.
- B. Except as provided in this chapter no person shall discharge or cause to be discharged any of the following described waters or wastes into any public sewer:
 1. Any liquid or vapor having a temperature higher than one hundred fifty degrees Fahrenheit.
 2. Any water or waste which may contain more than fifty parts per million by weight of fat, oil or grease.
 3. Any gasoline, benzene, naphtha, fuel oil or other flammable or explosive liquid, solid or gas.
 4. Any garbage that has not been properly shredded.
 5. Any ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, paunch manure, grits such as brick, cement, onyx, carbide or any other solid or viscous substance capable of causing obstruction to the flow in sewers or other interference with the proper operation of the sewer works.
 6. Any waters or wastes having a Ph lower than five and one half or higher than nine or having any other corrosive property capable of causing damage or hazard to structures, equipment and personnel of the sewage works.
 7. Any waters or wastes containing a toxic or poisonous substance in sufficient quantity to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals or create any hazard in the receiving waters of the sewage treatment plant.
 8. Any waters or wastes containing suspended solids of such character and quantity that unusual attention or expense is required to handle such materials at the sewage treatment plant.
 9. Any noxious or malodorous gas or substance capable of creating a public nuisance.

**13.5.2 Grease Interceptors Required
(O-09-01)**

- A. Each user of the City's sanitary sewer system other than typical single family residential users and those other users expressly exempted below, shall install and properly maintain a grease interceptor, or interceptors, as specified in the Uniform Plumbing Code, 2006 edition, in connection with any new construction or remodeling of any kitchen facility that is intended, in whole or in part, for the preparation of food in any manner and that will result in the delivery of fats, oils or grease (FOG), either directly or indirectly, into the City's sanitary sewer system.
- B. Those food preparation establishments which can demonstrate that a hydro mechanical grease interceptor (grease trap) will satisfactorily reduce the amount of fats, oils and grease to be discharged into the City's sewer system, due to the limited amounts of these materials that will be produced on site, may be permitted to install a hydro mechanical grease interceptor, as specified in the Uniform Plumbing Code, 2006 edition. These types of food preparation establishments will typically include delicatessens, sandwich shops, coffee shops, ice cream parlors and other similar types of facilities which do not fry, broil or grill the food that is produced on the premises.
- C. All other food preparation establishments will be required to install a gravity grease interceptor, as specified in the Uniform Plumbing Code, 2006 edition, in connection with any new construction or remodeling of the food preparation facilities. These establishments will typically include restaurants, cafeterias, fast food outlets, and cafes. Schools, fraternal organizations, churches, hospitals, community centers, care facilities, and places of public assembly which include kitchens for the production of food will also be required to install appropriate grease interceptors in connection with any new construction or remodeling of the kitchen or food preparation facilities associated with those operations.
- D. Existing food preparation establishments are not required to install grease interceptors unless or until any remodeling or reconstruction is initiated in the kitchen area. All existing food preparation establishments shall adopt "best management practices" for their operating procedures that will limit, to the greatest extent possible, the discharge of fats, oils and grease into the City's sanitary sewer system. In the event that these operating procedures do not adequately limit the amount of fats, oils and grease that are discharged into the City's system, the City may adopt an ordinance requiring all food preparation establishments to install appropriate grease interceptors.
- E. If any existing food preparation facility that is required to install a grease interceptor lacks the physical space for the type of device required by these regulations, the owner or operator of the property may request a variance, to be approved by the Public Works Director and the City Manager, to allow for the installation of an alternative form of grease interceptor. Any such alternative device or devices shall meet as closely as possible all of the applicable standards of the Uniform Plumbing Code, 2006 edition.
- F. The following types of uses are exempt from the requirements for installing any type of grease interceptors:
 1. All single family residential occupancies except for those that are used as a home occupation involving the preparation of food.
 2. All other residential occupancies which do not include a common kitchen facility for the residents.
 3. Businesses or institutions that serve or provide only pre-cooked foodstuffs or uncooked foodstuffs or which only reheat any such foodstuffs on the premises.

An exempt business or institution which obtains a building permit on or after March 1, 2009, for any construction or re-modeling in its kitchen and which subsequently alters its menu to include non-exempt foodstuffs shall be required to install an appropriate grease interceptor if the menu subsequently includes the preparation of non-exempt foodstuffs at that location.

- G. When a grease interceptor is required by this Article, the proposed make, model and design and installation specifications shall be fully described in the accompanying building permit application. The Building Inspector will obtain the review and approval of the Public Works Director, or his or her designee, for any such interceptor prior to issuing a permit. The Building Inspector shall require that all such interceptors are installed in a manner that is consistent with the requirements of Chapter 10 of the 2006 Uniform Plumbing

Code, as incorporated herein by reference, and the requirements of this Article as a condition for the building permit.

- H. Each grease interceptor shall be maintained in the manner required for the proper elimination of fats, oils and grease. This maintenance shall be the responsibility of the property owner or operator. All of the contents that are removed from the interceptor must be properly disposed of off-site, in a manner that is fully in accordance with all City, County, State and Federal laws and regulations.
- I. All interceptors shall be installed and connected in a manner that will make them easily accessible for purposes of inspection, cleaning and the removal of the collected fats, oils and grease. The Public Works Director and his or her designees are authorized to inspect the operations of all grease interceptors located within the City of Bisbee and to provide the property owner and operator with written notice of any failure to comply with any of these requirements. Any continuing failure to properly maintain, install or monitor a required grease interceptor is a violation of the City Code.
- J. Each facility that includes a grease interceptor of any type shall maintain on site a logbook in which an accurate written record of all interceptor maintenance and cleaning is recorded. This logbook shall include the date, time and description of all maintenance or repair work to each interceptor; the date and time of all cleaning or removal of fats, oils or grease from this equipment or the associated sewer lines; the name and address of the person who removed any such materials from the interceptor; and the name, address and phone number of the person who accepted custody of any such materials for disposal. This logbook shall be made available to City inspectors upon request, who may review it in connection with any on-site inspection.

13.5.3 Authority for Review and Approval of Certain Discharges

The admission into the public sewers of any waters or wastes having any of the following characteristics shall be subject to the review and approval of the City:

- A. A five day biochemical oxygen demand (B.O.D.) greater than three hundred parts per million by weight.
- B. Containing more than three hundred fifty parts per million by weight of suspended solids.
- C. Containing any quantity of substance having the characteristics described in Section 13-5-1.
- D. Having an average daily flow of greater than two percent of the average daily sewage flow of the City.

13.5.4 Preliminary Treatment

- A. Required. Where necessary in the opinion of the City, the owner shall provide, at his expense, such preliminary treatment as may be necessary to:
 - 1. Reduce the B.O.D. to three hundred parts per million and the suspended solids to three hundred fifty parts per million by weight.
 - 2. Reduce objectionable characteristics or constituents to within the maximum limits provided for in Section 13-5-3.
 - 3. Control the quantities and rates of discharge of such waters or wastes.
- B. Approval. Plans, specifications and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for approval of the City and the Arizona State Department of Health Services. No construction of such facilities shall be commenced until such approvals are obtained in writing.
- C. Maintenance of Facilities. Where preliminary treatment facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

13.5.5 Manholes

- A. When required by the City, the owner of any property served by a building sewer carrying industrial wastes shall install a suitable control manhole in the building sewer to facilitate observation and sampling of

wastes. Such manhole, when required, shall be accessible and safely located and shall be constructed in accordance with plans approved by the City. The manhole shall be installed by the owner at his expense and shall be maintained by him so as to be safe and accessible at all times.

- B. All tests and analyses of the characteristics of waters and wastes, to which reference is made in this chapter shall be determined in accordance with "standard methods for the examination of water and sewage" and shall be determined at the control manhole provided for in this section or upon suitable samples taken at such control manhole.

13.5.6 Special Agreements with Industrial Concerns

No statement contained in this article shall be construed as preventing any special agreement or arrangement between the City and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment, subject to payment therefore by the industrial concern.

ARTICLE 13.6 REGULATIONS PART OF CONTRACT

All regulations contained in this chapter shall be considered a part of the contract of every resident of the City taking sewer service from the City, and such resident taking sewer service shall be considered as having expressly consented to be bound thereby. Consumers outside the City limits shall, upon application for sewer service, be required to sign a statement agreeing to the regulations set forth in this chapter.

ARTICLE 13.7 ACCEPTANCE OF SANITATION EASEMENTS (O-12-07)

The Public Works Director, on behalf of the City of Bisbee, is authorized to accept and to record easements, rights-of-way, deeds or other conveyances of title, or any interest therein, that are granted to the City of Bisbee without any requirement for payment or exchange from the City of Bisbee and that may be necessary to document, perfect, or establish the right to maintain, repair, relocate or construct a sanitary sewer line or main within the City's present service area, within the corporate limits of the City of Bisbee. The Ordinance by which this Article has been adopted shall be deemed to be approval of the acceptance and approval of all such grants, in accordance with the requirements of the Charter of the City of Bisbee.

ARTICLE 13.8 ACCEPTANCE OF SANITATION EASEMENTS (O-17-08)

For a limited period of time and for one time only, the City will forgive all penalties and interest, and 50% of the remaining delinquent amount owed on garbage and sewer accounts upon the Account Holder's written agreement to pay the remaining balance due, as calculated by the City, within a six month period. To take advantage of this option, the Account Holder must enter into an agreement with the City between the following dates: August 31, 2017 through September 7, 2017. This will be the only opportunity to enter into an agreement with the City to take advantage of the forgiveness option. The Account Holder shall agree to enter into an agreement with the City in which the monthly payments for the remaining balance due are paid via direct debit from a bank account. Should the bank account contain insufficient funds when the City attempts to process a payment, the City will charge the account holder a \$15.00 non-sufficient funds fee.

During the six month period in which the Account Holder is making payments, the City will waive the monthly penalty and interest accrual. Upon timely and full payment of the remaining balance due, any liens on the Account Holder's property shall be released by the City. The City will also remove the Account Holder from the Arizona debt setoff program upon timely and full payment of the remaining balance due. Should the Account Holder fail to pay the remaining balance due within the six month period, all penalties and interest shall be reinstated in full and a lien will be placed on the property for the full amount owed, if

applicable. Likewise, the Account Holder may be referred to the Arizona debt setoff program and to a collection agency, at the City's option. For each property in which an Account Holder takes advantage of this option, as described above, the City shall install a sewer shut-off valve at the serviced property if one does not already exist.

An Account Holder that elects to take advantage of this forgiveness option, may elect to immediately pay off the balance owed, as calculated by the City, via money order or cashier's check, and bypass the six-month repayment plan described above.
