

MISSION STATEMENT FOR THE  
COMMUNITY SUSTAINABILITY  
COMMISSION:

The Sustainability Commission works to engage and inspire City government and the Bisbee community on the value of a sustainability ethic. The Commission acts in an advisory and leadership capacity to enrich our present and future community. Through innovative sustainability policy and measurable program development, the Commission recommends policies that protect and enhance the natural environment, social well-being, and the economy with the aim to create a self-sufficient, healthy, and vibrant community.
