3. Discussion and Possible Approval of a Contract for Services with Ambulance Medical Billing (AMB) for Ambulance Billing Services.
Keri Bagley, Finance Director

Ms. Bagley stated that this was a contract for ambulance billing services. The contract with AmBiServ expired on December 31st. A request for proposal was posted in December and eight (8) companies responded. Staff recommended the selection of Ambulance Medical Billing (AMB) based on the best combination of pricing and service.

4. Public Hearing and Discussion and Possible Approval to abandon the portion of an easement adjacent to parcel #103-99-053B "Also known as 223 Youngblood Hill".
Theresa Coleman, City Manger

Ms. Coleman said that Mr. Conklin had first come to the city to purchase land, but this was not land owned by the city it was an easement. She said it was before Council to consider abandoning a portion of the easement as described in the survey that Mr. Conklin provided.

Mayor Smith clarified that the city was not providing land and asked if all we were doing was abandoning our easement. Mr. Ledbetter said that was correct.

Councilmember Pawlik asked who owned the property, he said that he understood easement they were granted over property. So, who owns it now. He also asked if this went before the Planning and Zoning Commission.

Ms. Coleman stated "No" it didn't go before the Planning and Zoning because it was not a sale of a property.

Councilmember Pawlik asked if we abandoned the easement does the ownership of the property transfer to Mr. Conklin.

Mr. Ledbetter asked Councilmember Pawlik if he was comfortable with him giving legal advice in this forum rather than in executive session.

Councilmember Pawlik stated that he was comfortable with it.

Mr. Ledbetter said that many years ago easements were granted to the city over parcels of land and those easements still exist on paper and what happened was the boundary of the principal area would expand. So, Councilmember Pawlik would be correct on an easement abandonment.

Mr. Ledbetter said that regarding Councilmember Pawlik's question about it going to the Planning and Zoning Commission he stated that it would go to them if it were for sale. The original intent of Mr. Conklin was to purchase it, but after further review this particular strip of lands original intent was as an easement.

Councilmember Pawlik asked if anyone in the community would be harmed by this transaction.

Ms. Coleman said that what she understood from the survey it doesn't impede access to the stairway on either side of it and that part of the easement serves as a drain further up the hill.

Councilmember Hansen stated that she had received several emails regarding this and one of those that concerned her was that the people in that area were concerned about the parking, using the area so that everyone had parking.

Mayor Smith said that he would like to open this up for public comment.

Councilmember Johns asked if the city was doing anything currently to maintain this property.

Ms. Coleman said that she was not aware of the city maintaining it.

Councilmember Giacomino asked if this was being used for any specific easement at this time.

Ms. Coleman said that because of the way it comes down the hill it appears that there was a drainage way that comes through that easement and it was acknowledged on the survey that was provided.

Mayor Smith opened the Public Hearing.

- Mayor Smith asked if there were any members of the public that would like to speak in support of this item.

  - Mr. Jon Sky spoke in favor of this item.
  - Mr. Conklin spoke regarding his request. He answered questions that the Council had.

- Mayor Smith asked if there were any members of the public that would like to speak in opposition of this item.

- Monika Patience spoke in opposition of this item.
- Shirlee Greason spoke in opposition of this item.

- Mayor Smith asked the City Clerk's Office if there had been any written communications filed with the City Clerk's Office. Ms. Williams
  - Ms. Williams indicated that the City Clerk's Office received a total of five (5): two (2) were not in favor of the request, one (1) requested it be tabled, one (1) requesting that the city receive something in return and one (1) requested that it be for sale not abandonment.

Councilmember Higgins asked if the city attorney could explain once again the difference between an easement, which we have no right to sell and a piece of property that the city owns. It needs to be known that we were not selling a piece of property we are abandoning an easement.

Mr. Ledbetter said that the City of Bisbee was granted lots of easements so that property owners could have ingress and egress to their homes. Someone who owns or controls an easement had the right to trespass over the land, the city has held that right for citizens. If it was not in any use for city purposes the city could choose to abandon it. He stated the city manager was correct the process for abandoning an easement was not a sale process that goes to the Planning and Zoning rather a decision for approval from the city Council.

Councilmember Giacomino asked about this going to the Planning and Zoning Commission that it seemed to be some of the issue with those who spoke in opposition of this item. She wondered was the opportunity to send it to the Planning and Zoning Commission to get their opinion was that allowable.

Mr. Ledbetter said that it was his opinion that this does not need to go under our current code through Planning and Zoning. However, if Council chose to send it to Planning and Zoning that was the Council's call. Council could absolutely do that.

Councilmember Cline said that Mr. Conklin was doing a wonderful job, but she was conflicted because there was so much opposition out there and thought she would feel better if it went before the Planning and Zoning just to give the Council their opinion, that way all the neighbors were heard.

Councilmember Pawlik stated he was on the Planning and Zoning Commission for two (2) years and it was standard operating procedure for the transfer of city property to go through Planning and Zoning. If it was below a certain amount of money the city didn't have to go out to auction they could just assign a property value and transfer that property. He was still unclear why Mr. Conklin purchasing this property was not an option. He would prefer to see this go before Planning and Zoning so they could make a recommendation based on staff input.

MOTION: Councilmember Johns moved to send this item to the Planning and Zoning Commission.
SECOND: Councilmember Pawlik MOTION PASSED: AYES -6; NAYS -1 (Smith)

5. Discussion and Possible Approval of a Notice of Intent to Adopt Ordinance O-20-01; Amending the City Code Section 10.1.8, Nuisance.

Theresa Coleman, City Manager

Ms. Coleman said that the concerns regarding the language had been addressed, she pointed out there was an exception in this ordinance related to the Entertainment District. We currently did not have any guidelines for the Entertainment District this would be something that she would bring to the Council as a follow-up for Council's consideration of this ordinance.

- Jeff Shriver, Bisbee resident spoke regarding speakers outside that played day and night. He objected to that and wanted this to be considered in regards to the Entertainment District.

- Anthony Schlagel, Bisbee resident had the same complaint that Mr. Shriver expressed. He thought there should be an amendment within to address the commercial district.
- Jon Sky, Bisbee resident questioned who decided what was offensive, and who isn't a reasonable person. Mayor Smith answered that it would be up to a judge to decide. Mr. Sky continued to question the nuisance ordinance.

Councilmember Giacomino stated that there needed to be some clarification if speakers were out, that sounds like an event it should fall under a special event.

Ms. Coleman said that it was important for us to go back and define what the guidelines are.

Councilmember Johns asked how law enforcement would handle the situations where one neighbor hates another and multiple calls are made. How would law enforcement handle this?

Chief Echave said that they would do their due diligence and if a citation was warranted a citation would be issued, it would go before the judge to make that determination.

Mayor Smith asked Chief Echave if his officers try to mitigate the situation before a citation was issued.

Chief Echave stated that they do try to mitigate, but the way business operated in the District it became a challenge.

Councilmember Giacomino asked why such a drastic jump in cost from the second to third offense.

Ms. Coleman said that it was to create a deterrent.

Councilmember Higgins thought that 6:00am was the wrong time to start in the morning maybe 7:00am.

Mr. Haro, Public Works Director said that Public Works starts their trash and recycling services at 6:00am. He thought that they may be exempt from this however, they would like to participate.

Councilmember Pawlik stated that he had an issue with the fines when this was brought forward before the first and second were lowered and the third kept the same the reason was for a deterrent. He accepted that reason and thought the compromise was a good one. He thanked the staff for taking that into consideration.

MOTION: Councilmember Pawlik moved to approve the Notice of Intent to Adopt Ordinance O-20-01; Amending the City Code Section 10.1.8.
SECOND: Councilmember Johns

ROLL CALL VOTE:

Jesus Haro, Public Works Director

Mr. Haro said the 5311 grant was funded through the federal transit administration and administered through ADOT, this was a bi-annual application that we have used throughout the years. We use this funding to support our bus system.

MOTION: Councilmember Cline moved to approve Resolution R-20-01 in support of the Bisbee Bus Transit Program and its continued administration and operation through various grant applications to the Arizona Department of Transportation, accepting grant funding and providing match if awarded, and authorizing the Mayor to sign all applications and grant contracts.

7. Discussion and Possible Approval to publish a Request for Proposal to demolish and dispose of the remaining structure at 118 Arizona Street.
Jesus Haro, Public Works Director

Mayor Smith said that the Council had gone through this last time and it was a tie vote. He wanted to make sure that if anyone had a question of what this means. This was a request for an RFP to obtain pricing to demolish the building. This what indicating that we would demolish.

Councilmember Giacomino wanted to know what we had done with investigating using it as a façade.

Mr. Haro said that it was not necessarily that we can't do it, but it was extremely expensive. There was report that recommended that we do not use the structure because the interior was not supported with rebar.

Councilmember Pawlik said that he had no problem with saving the building what he did have a problem with was saddling the tax payers of Bisbee with that expense.

Councilmember Cline said that we needed to be out there actively looking grants, historic grants or whatever we could find. She also said that residents here made it very, very clear to at least use the façade. She thought that it was well worth looking into rather than demolishing it.

Mayor Smith stated that this was a request to obtain a price to demolish so that we know what we have in the budget to spend.

Mr. Haro said that the price we currently had was a rough estimate. We were trying to do research so that we could make the right decision. This doesn't mean that we are going to demolish it, it would go before Council again to decided what was to be done.

Councilmember Higgins reiterated that all we were doing was seeing how much it would cost.

Councilmember Hansen asked if the façade was in any danger of falling.

Mr. Haro said that there was a chance that it could fall because it was not properly secured.

Councilmember Giacomino asked if we had an engineer's report that said that.

Mr. Haro said that we did not have an engineer's report that says the exact wind shear. As an engineer he felt like he could say that it could fall.

MOTION: Councilmember Higgins moved to approve the publishing of a request for proposal to demolish and dispose of the remaining structure at 118 Arizona Street.
SECOND: Councilmember Hansen

ROLL CALL VOTE:
AYES: Councilmember Pawlik, Hansen, Johns, Higgins and Mayor Smith.
NAYS: Councilmember Giacomino and Cline
MOTION PASSED: AYES -5; NAYS -2

8. Discussion and Possible Approval to purchase Material and Installation for Ultraviolet System upgrades to the San Jose Waste Water Treatment Plant.
Jesus Haro, Public Works Director

- Donna Pulling, Bisbee resident opposed this purchase and asked if it was necessary.

Mr. Haro said that this was a repair and upgrade to our uv system. The system was repaired in the past, but not the correct way. We were down to a few uv lights working. If we lost them, we could be in some trouble we had no way to sanitize the water without having to bring in chlorine which could be very expensive. If it goes down and we have to do an emergency repair that would be more expensive. He stated that this was a sole source provider.

Councilmember Pawlik asked Mr. Jacobsen if this system was repaired what was his estimate on the longevity.

Mr. Ron Jacobsen, WWTP Manager (JACOBS) said that these systems are always exposed to the elements. These systems run 24 hours a day. He explained exactly what happens if our system fails and how the system runs in general to the Council.

Councilmember Giacomino asked how long this would last.

Mr. Jacobsen explained the warranty to the Council and said that it would last 5 years.

MOTION: Councilmember Pawlik moved to approve the purchase of material and installation for ultraviolet system upgrades to the San Jose Waste Water Treatment Plant.
SECOND: Councilmember Hansen

ROLL CALL VOTE:

Albert Echave, Chief of Police

Chief Echave said this was a SPILLMAN product and it was mandatory reporting. This fee was budgeted for. in the budget. Staff recommended that this goes forward.

Mayor Smith reiterated that this was mandatory, the federal government mandated that this be done.

MOTION: Councilmember Hansen moved to approve the Maintenance & Management Agreement between Spillman Technologies and the Bisbee Police Department to incorporate a new mandatory uniform crime reporting system (NIBURS).

WHEREAS, the relative reduction in the share of State revenues which the City of Bisbee has experienced in recent years, and the increase in certain costs, such as those for the state-mandated and operated Public Safety Personnel Retirement System, have given rise to a situation in which the City of Bisbee can no longer continue to provide the same level of services with its existing, available revenues; and

WHEREAS, many other jurisdictions have successfully marketed their communities for additional growth in tourism and other types of development with funds that are directly obtained from existing tourism; and

WHEREAS, the Mayor and Council, after due deliberation, have determined that an increase in the amount of the City's transient lodging (bed) tax rate is the most feasible, currently available source of additional revenue for the promotion and increase of tourism; and

WHEREAS, the City Charter, Article VI., Section 6.02(g), restricts the authority of the Council to increase or decrease the transaction privilege tax "only upon the approval by a majority of the qualified electors voting in the regularly scheduled general election,"

2020 Census FAQ

What is the census?

The census is a count of every person who lives in the United States and its territories. It happens every 10 years. In early 2020, you will be asked to count everyone who lives in your home as of April 1. Responding to the 2020 Census is a chance to shape your future.

What's in it for me?

Your responses inform where over $675 billion is distributed each year to communities nationwide for clinics, schools, roads, and more.

Census data gives community leaders vital information to make decisions about building community centers, opening businesses, and planning for the future.

Responding also fulfills your civic duty because it's mandated by the U.S. Constitution. The United States has counted its population every 10 years since 1790.

Your responses are used to redraw legislative districts and determine the number of seats your state has in the U.S. House of Representatives.

Is my information safe?

Your responses to the 2020 Census are safe, secure, and protected by federal law. Your answers can only be used to produce statistics. They cannot be used against you by any government agency or court in any way—not by the FBI, not by the CIA, not by the DHS, and not by ICE.

When can I respond to the census?

In early 2020, every household in America will receive a notice to complete the census online, by phone, or by mail. In May, the U.S. Census Bureau will begin following up in person with households that have yet to respond.

What will I be asked?

You will be asked a few simple questions, like age, sex, and the number of people who live in your home, including children.

What won't be asked?

The census will never ask for Social Security numbers, bank or credit card numbers, money or donations, or anything related to political parties.

Cochise County Tourism & Economic Council
c/o 1415 Melody Lane, Building G

February 20, 2020

To: Arizona Office of Tourism

The Cochise County Tourism & Economic Council (CCTEC) is writing in support of the City of Bisbee's request for a variance to allow its officially designated visitor center to be less than the required 1,200 square feet.

As the Designated Marketing Organization for Cochise County, the CCTEC recognizes the importance of locating rural visitor centers at sites that provide maximum benefit for both visitors and the host destination. Bisbee is a small, historic mining town with limited space in its commercial district for a large visitor center.

With the vast majority of tourists visiting the historic downtown and entertainment district, the proposed new site at 5 Copper Queen Plaza is ideally located to provide easy and convenient access to information about the city of Bisbee and other tourist destinations in Cochise County.

The CCTEC is a partnership comprising Cochise County and the cities of Sierra Vista, Douglas, Bisbee, Willcox, and Benson. We firmly believe working together as a group strengthens our ability to promote our rural region to the thousands of visitors who come here annually, as well as allowing us to overcome the challenges of marketing in a competitive, tourism environment.

We respectfully request, therefore, that the City of Bisbee be allowed its requested variance to its visitor center size while maintaining its status as an official Arizona Visitor Information Center.

Sincerely,

Amanda Baillie

TO WHOM IT MAY CONCERN:

As Director of the Bisbee Mining & Historical Museum, I am writing in support of relocating the Official Arizona Visitor Information Center to 5 Copper Queen Plaza. The proposed new Visitor Center location is the front office of the 1917 Paymaster's Office of the General Headquarters' of the Copper Queen Consolidated Mining Company, a National Landmark site listed on the National Register of Historic Places. The historic Paymaster's Office is attached to what is now the Bisbee Mining & Historical Museum, a 501 [c][3] under the governing authority of the Bisbee Council on the Arts & Humanities. This letter also states our commitment to donate this space for this specific purpose.

The Museum is located at the entrance to Bisbee's newly designated Arts & Culture District as well as the recently designated Entertainment District, thus its location is prime for Bisbee tourism, visible, and easily accessible. It is also located in Copper Queen Plaza Park, in which we have invested over $350,000 in its revitalization, bringing it back to its 1930's beauty.

In 2016, many of the Main Street merchants asked if I would consider offering the front office for an "annex" to the certified visitor center located across Hwy 80 from the Historic District. We created a proposal to use this space for a secondary, visitors information site and to share an employee between the City of Bisbee and the Museum to provide administrative support. Both my Board of Directors and City Council agreed with the proposal. Together we raised funds to update and renovate the office. Again working together, we prioritized interweaving our rich cultural-heritage and arts traditions as the face we present to our visitors. This paradigm has been successfully operating for the last four years.

We acknowledge that this space is well under the suggested 1,200 square-feet; however, we will be able to accommodate official AOT marketing materials and AOT publications.

The site is ADA accessible under reasonable accommodation for Title II existing facilities.

Copper Queen Plaza Park has 16 public parking spaces fronting both the east & south sides of the Park, including 2 ADA parking spaces. Public restrooms are located next to the building in Copper Queen Plaza Park and are ADA compliant.

Again, please allow this letter to serve as both our support for and commitment to the relocation of the Official Arizona Visitor Information Center to 5 Copper Queen Plaza.

Sincerely,

Carrie Gustavson, Director

FROM: Theresa Coleman, City Manager

RECOMMENDATION: At Mayor and Council's Discretion

PROPOSED MOTION: At Mayor and Council's Discretion

DISCUSSION:

The City of Bisbee is proposing changes to various fees along with creating a Fee Schedule. Many of these fees have not been increased in many years. An increase in fees is needed to keep up with the increasing costs associated with providing these services. The Fee Schedule would allow the City to have all fees in one central location making it much easier to find fees.
