REQUEST FOR INFORMATION (RFI) #2

Date: August 23, 2023

This RFI contains a total of 2 pages.

The following clarifications and/or revisions to the Bid Documents and/or Drawings for the project shall become a part of the Contract Documents. Only these items are to be altered. The remainder of the original Bid Documents and/or Drawings maintain validity in their entirety.

Note: A response to RFI #1 was included as a Clarification in Addendum #4.

Subject: Low Voltage Wiring

Question #1: Addendum #3 states that "all low-voltage wiring is to be provided by contractor". Does this include the CCTV wiring, cameras, and head-end equipment?

***Response: All low-voltage wiring, including materials and labor required for CCTV wiring, cameras, and head-end equipment shall be provided by and installed by the contractor.***

Question #2: Addendum #3 states that "all low voltage wiring is to be provided by contractor". Does this include the phone/data cabling, patch panels, and hardware?

***Response: All low-voltage wiring, including materials and labor required for phone/data cabling, patch panels and hardware shall be provided by and installed by the contractor.***

Question #3: Is the intent to have the motion sensors shown on the special systems plans integrated into the Access Control system, or to have a complete intrusion detection security system?

***Response: It is the intent to have the motion sensors shown on the special systems integrated into the access control system. All equipment, materials and***

***labor required for installation of the motion sensors shall be provided by and installed by the contractor.***

4. Will the City need the contractor to provide a workstation computer loaded with the access control software, or will the City be providing a computer for this purpose?

***Response: The City will not require the contractor to provide a workstation computer to upload the access control software. The City will provide a computer for the contractor to install the access control software.***
