Future Visions for COB

Trees on all streets
PV panels on Tailings piles
Bike lanes
Bus hours extended to help restaurant employees
Affordable housing and neighborhoods
More arts and culture funding
Maintain the historic (real) feel of bisbee. Don't lose our history!
Subsidized water harvesting
Transportation around all parts of bisbee and more frequent small vans, (Hybrid)
Protect our historic heighborhoods
Programs to assist private owners to meet building code for commercial structures
Bring historic government buildings up to code
Old Bisbee warren grocery store
Safety curb, bicycle lanes and routes
safe walking and biking between wards
Environmental leaders
wind power
Electric vehicles, charging, wind power
No more plastic bags, less dollar stores, better grocery store,
community gardens
trolley from Old Bisbee to warren
Better public transit between neighborhoods, and Douglas, Naco, and New point of entry
16 parks and all of them should be friendly, with native plants.
All bisbee neighborhoods. Safety and health.
Environmental and cultural tourism.
Capitol of the world,
Sky island hotel.
accomodation for tourist scientists.
handicap accessibility, signage on sidewalks marking
Professional assistance to police for dealing with mental health situations.
Housing for homeless, especially for mentally ill homeless.
utility company competition.
Sustainability through all city depts

Everyone should think of capturing all the water that falls, not just using water wisely.
Housing and jobs for all families.
Earmark transportation funds to wards providing matching funds for bisbee bikeways project. Multiuse pathways
Soccer field
more shade
Eco tourism
Leash laws
Soccer field
Housing, senior housing, bus service more routes.
Dog park in old bisbee, Police protection, Affordable housing, senior housing.
More frequent bus service
Mechanisms for enforcing fire and building codes.
A safer city with a pressure water fire suppression system which serves the entire town.
Sustainability
Rainwater harvesting
native plants
fire resilience
less dependence on outside resources
solar panels.
affordable housing and alternative housing including infill
City trail
Housing
Tiny homes
Accesible
aging in place
Transportation flexible hours
Old bisbee parking solutions for events, shuttles.
airbnb limits
